This document

This document provides an overview of instructions for participants to a Video Remand Hearing (VRH). The VRH will be done using Cloud Video Platform (CVP) which enables participants to appear in court remotely via video using Laptops, tablets etc. This document also refers to detailed guidance on relevant subjects in this regard and participants are advised that **the court will act in accordance with the Criminal Practice Directions**.

The document is divided into 4 sections as detailed below;

Section 1 - Background and COVID19 VRH Operating Model

Section 2 - General Instructions for all participants

Section 3 - Technical Instructions - how to join via video for all participants.

Section 4 – Specific instructions - Agencies & Participants

Section 1

Background & C-19 VRH Operating Model

The COVID19 Video Remand Courts have been set up to enable courts to keep operating while maximising the use of video links to maintain social distancing and prevent court users from travelling to appear in person wherever possible.

The bench (magistrates and legal adviser/ DJ(MC) and court associate), Host/Court Video Operator (CVO) and some other essential court staff will be in the courtroom. In line with open justice requirements, the press and members of the public can still attend providing they observe the required social distancing rules.

COVID19 Video Remand Hearing Instructions for Defence Advocates Baseline V2.0 040520

Prosecutors, defence solicitors, probation, Liaison & Diversion (L&D), Youth Offending Teams (YOT) and interpreters **are expected to join by video link**, but the court retains the option to require their attendance if absolutely necessary.

As part of the process there is a requirement for the Police Custody to facilitate confidential pre- and where required post hearing consultations with Defendants and their Solicitors and Probation team in accordance with Code C Para 6J of the Codes of Practice

The defendant will have been assessed in police custody for suitability to take part in their hearing by video link. Under the COVID19 emergency legislation it is only in exceptional circumstances that the police will produce a defendant to the court.

Courts will make a live link direction at the start of the day. Judicial discretion to rescind a live link direction is not affected by the emergency legislation.

		<ul style="list-style-type: none"> Please ensure you inform the Court via the Host/CVO as soon as you are ready.
15	How do I make sure I can see everyone on screen?	<ul style="list-style-type: none"> If you have two devices available to use e.g. a laptop and a tablet then consider using one device for your notes and one for the video hearing. If you have a spare screen or TV you can connect it to your computer, then use it for your video window. It will make it much easier to manage your video feed and documents. The screen design in CVP will maintain focus on the defendant, and then the current speaker will appear in a video window the same size, alongside (You don't need to do anything, this will happen automatically) The other participants will be shown along the bottom of the screen.
16	What do I do if there is a lot of internet traffic?	<ul style="list-style-type: none"> Audio and video quality may be affected given high internet usage while the country is in lockdown. If you are having difficulty connecting you can call the Host/Court Video Operator to get assistance. You may want to minimise other internet use at your location while you are working.
17	If you experience any technical issues with using CVP or if you have problems logging in or your link fails.	<ul style="list-style-type: none"> Please contact the CVP helpline: 0330 808 9405 (Monday to Thursday: 9am to 5pm, Friday: 9am to 4pm, Saturday and Bank Holidays 8am to 2pm).

19	Hearing Expectations and changes you might experience	<ul style="list-style-type: none"> The court will expect the case to be progressed in accordance with the Criminal Procedure Rules. This includes taking a plea, conducting case management and sentencing as appropriate. Any participant in physical court room should remain seated behind the microphone during the hearing to ensure all participants in the virtual court room can hear. You may find that the hearing will need to be managed more formally. For example, each participant may need to be introduced as they speak and their role stated. Each stage of the hearing might need to be identified as you progress through it.

		<ul style="list-style-type: none"> Longer gaps may be introduced between each participant as they speak. You will encounter some hearings where there are audio delays and frustration can creep into a hearing if participants think they are being interrupted.
20	What happens if the hearing becomes unworkable due to technology issues?	<ul style="list-style-type: none"> If the hearing becomes unworkable then the Court will make a decision on how to proceed and you will be kept informed. Call the Host/Court Video Operator on the phone. They will advise you on what happens next.
21	What do I do if there is an interruption e.g. a delivery, dogs barking or children playing during my hearing?	<ul style="list-style-type: none"> It is accepted that it may not be possible to avoid all interruptions in the current situation, but this must be kept to a minimum. If you have a known delivery of essential items e.g. medical supplies, then do not make yourself available for a video hearing at that time.
22	What happens if we start talking over each other?	<ul style="list-style-type: none"> If more than one person is speaking at the same time in a video hearing then no one can be heard. Expect the Bench or DJ to reinforce existing court etiquette. They will ordinarily invite each participant to speak. Be sure the previous speaker has finished before you start to speak. Pay extra attention to this if an interpreter is present.

1	Notification of Defence Representation	<ul style="list-style-type: none"> We expect that the Defendant will have told the Police their solicitor's details or if they don't have a specific solicitor whether they wish to be represented by the court duty solicitor for the VRH We will be asking Police Custody to tell the Court the defendant's Solicitor Firm's details, or alternatively which defendants wish to see the court duty solicitor. <i>This is a new process that we have had to introduce as we move to centralised 'Open Courts' where the staff will not be familiar with those solicitor firms.</i> We expect Solicitors, including the allocated court duty solicitor, to email the court by 8am in the morning to provide the representative's contact details. HMCTS will provide generic email address for each court that Solicitors can email.
2	How will I know if the judge/magistrate approves use of the video and what are the expectations if they don't?	<ul style="list-style-type: none"> The default position is that attending court is the exception. You can contact the court (via the nominated CVP mailbox) for any exceptions for the day.
3	How do I speak with my client in a police station?	<ul style="list-style-type: none"> You will be given time prior to the hearing to consult with your client. 		<ul style="list-style-type: none"> The Video Host will share these details with the police custody suite who will then contact you directly to make the arrangements for you to have your consultation via telephone.
4	How do I access unrepresented defendants in police station when I am the court duty solicitor?	<ul style="list-style-type: none"> You will have emailed the nominated CVP mailbox to introduce yourself, who you are representing and your contact details including telephone number. 5	Will I still need to attend court as the duty solicitor for overnight custody cases if all are to appear virtually?	<ul style="list-style-type: none"> No, it is expected you will attend by video like any other participant, once you have introduced yourself to the nominated CVP mailbox you will be emailed instructions on how to do this.
6	How will I know who is in the cells needing a solicitor?	<ul style="list-style-type: none"> The expectation is that during the interview a Duty Solicitor or a personal solicitor will have been involved. This means that the Police Custody suite will have filled in your details on a spreadsheet together with the defendant details and will have sent this to the Court video host. The Video Host will then contact you if you have not already introduced yourself via the CVP mailbox.
7	How do I contact my client in a court cell?	<ul style="list-style-type: none"> If your client has been produced to the court house, follow previous guidance on speaking to your client in the court cell.
